

GREECE

Greece gives the opportunity to both visitors and residents to explore the roots of Western civilization. Throughout the country there are hundreds of museums, archaeological sites and monuments that capture the flourishing of arts, architecture, philosophy and thought.

With more than 300 sunny days a year, the Greek climate contributes to a pleasant lifestyle throughout the year. Residents and visitors have the opportunity to enjoy a variety of summer and winter sports activities such as tennis, sailing, swimming skiing and cycling.

Jim Paparrigopoulos

My name is Danai and I'm 11 years old. My country is Greece and it is situated on the southern tip of the Balkans and at the crossroads of Europe, Asia and Africa. Greece shares land borders with Albania to the northwest, North Macedonia and Bulgaria to the North and Turkey to the northeast. The country has plains and mountains but it is also surrounded by sea. The biggest seas are the Aegean Sea and the Ionian Sea. It has got a lot of rivers, too. The biggest one is Aliakmonas which is 297 km. The weather is cold in winter, but hot in summer and sometimes it rains in the summer, so summers can be wet. The people are friendly and some of them also come from other countries, such as Albania. I'm so happy that I live in Greece, because it has everything.

My name is Spyros and I'm 11 years old. I'm from Greece. Greece belongs to the European Union. It is a peninsula. It is a small country but it has got a beautiful sea and islands in the Aegean and the Ionian Sea. Also, it has got a lot of cities, towns,

villages, lakes, rivers and ports. The capital city is Athens.

Apart from being beautiful, Greece has the richest history in the world. In ancient times, the Ancient Greeks developed Philosophy and Sciences. They also created great monuments.

Greece is my homeland and I love it!
